CABLE TELEVISION ADVISORY BOARD

12/12/2025

A meeting of the Cable Television Advisory Board was held December 12, 2025 at 8:30 am in the Aldermanic Chamber.

Members of Committee Present: Andrew Cernota, Chairman
Captain Patrick Hannon
Ernest Jette, Alderman
Jennifer McCormack, Library Director
Nick Miseirvitch, IT CIO
Emily Vassar
Oscar Villacis
Chief Steve Buxton
Tim Cummings, Administrative Services Director
Cole Morgan
Also Present: Jeff Poehnert, PEG Program Manager
Pete Johnson, Education Channel Access Administrator
Dan Young
George Russell
Bob Bartis

COMMENTS FROM THE PUBLIC:

Andrew Cernota, Chairman:

Andrew Cernota is here. Tim Cummings will be joining us by Zoom for the discussion. Patrick Hannon.

Captain Patrick Hannon:

Here.

Andrew Cernota, Chairman:
Alderman Jette.

Ernest Jette, Alderman:
Here.

Andrew Cernota, Chairman:
Jennifer McCormack.

Jennifer McCormack, Library Director:
Here.

Andrew Cernota, Chairman:
Nick Miseirvitch.

Nick Miseirvitch, IT CIO:
Here.

Andrew Cernota, Chairman:
Cole Morgan is not here. Is Gregory Rodriguez still the representative from the schools?

Ernest Jette, Alderman:
Yes.

Andrew Cernota, Chairman:
Yes. Okay. He is not here. Emily Vassar.

Emily Vassar:
Here.

Andrew Cernota, Chairman:
Oscar Villacis?

Oscar Villacis:
Villacis.

Andrew Cernota, Chairman:
Villacis.

Oscar Villacis:
Here.

Andrew Cernota, Chairman:
All right. We have a quorum. Public Comment

Chief Steve Buxton:

Did I get kicked off the board?

Andrew Cernota, Chairman:

Oh, I'm sorry. Actually, you're not on the list.

Jennifer McCormack, Library Director:

You can go home Steve.

Chief Steve Buxton:

Right.

Andrew Cernota, Chairman:

Chief Buxton.

Chief Steve Buxton:

Present.

Andrew Cernota, Chairman:

All right. Public Comment. We do have someone in the gallery. Would you like to make a comment? Okay. Acceptance of minutes from previous meetings. Is there a motion?

Jennifer McCormack, Library Director:

Jennifer McCormick, move to accept and place on file.

Andrew Cernota, Chairman:

There's a motion to accept and place on file. Any discussion of the motion? Seeing none, all those in favor?

Participants:

Aye.

Andrew Cernota, Chairman:

All those opposed? The motion passes. Communications. You should have all received copies of advisories that the city received from Comcast regarding the rate change and some impact to the channel lineup. Is there a motion with regard to those communications? Alderman Jette.

Ernest Jette, Alderman:

I move to accept and place on file.

Andrew Cernota, Chairman:

There's a motion to accept and place on file. Any discussion? Seeing none, all those in favor?

Participants:

Aye.

Andrew Cernota, Chairman:

All those opposed? The motion passes. Mr. Poehnert.

Jeff Poehnert, PEG Program Manager:

Our current balance, Jeff Painter, PEG Manager, current balance of operating account 2505 is \$129,946.05. Expenses for November 2025, including salaries and facility operations totaled \$34,220. Operations, we had 5,352 cable cast, total between September and November. And of this, 1174 live events, and this broke down to Public 96 at 36, Education 99 at 56, and Government 16 at 49 and our High Definition Channel, 33. There was 5,178 playbacks, and of this, Public was 96 was 2,748. Education 99 was 811, and Government 16 was 842, and our High Definition Channel was 777. We'll need to secure the additional 1% remaining in the General Fund out of the total of 4% Comcast contributes to fulfill their franchise obligations for fiscal year 2027.

We'd like to set that up so that we are ready for the budget season coming up, just that, to add that 1% so we get all 4%. Due to the ongoing Police Department construction in our building, we'll hold off requesting to have a CTAB meeting in the studio until that work is completed. All right. And I had on here, Chairman Cernota has requested that CTAB holds Board Officer Elections this morning at this meeting. And Pete?

Pete Johnson, Education Channel Access Administrator:

As far as the Education Channel's concerned, it was obviously a busy fall for us with a lot of things going on. We had a lot of football. With the elections. We had a lot of pre-election coverage for both the Board of Aldermen and the Board of Education candidates' forums. And I won't bother to go through and read everything, but we continued to work on Public Health Matters in the Studio. Just seeing if there's anything specific there that we need to bring up. And I don't specifically see anything. If anybody has any questions on what you see there in my report, please let me know now or after the meeting. So, Dan has some good news. We went to an event on Monday that was held after the information was put on the form here, so we'll give it over to Dan.

Dan Young, Nashua Community Media:

Hi, Dan Young, Nashua Community Media, Creative Coordinator. As Pete mentioned on Monday, we attended the Alliance for Community Media, Northeast Region One Day Summit in North Hampton, Mass. Pete Johnson, Dylan Smith and I participated in a variety of workshops covering topics such as building a podcast studio, AI's impact on broadcast operations, Government meetings, and accessibility compliance, and the impact of AI on creativity. We also met with several vendors throughout the day and learned about new products and emerging features in our field. One of the highlights from TelView, and I'm just going to bump ahead to the second one there. There's a new closed captioning accessibility tool that's going to be included in the service that we have that will allow people in this room or people in the audience or whomever to log into a webpage and view the live closed caption data, which we are providing at the moment for the BOA meetings, and as of January 1st, we're transitioning to all the meetings.

So, it's another level of accessibility for people in this room to become engaged in the Community. In addition to the live captioning, we also learn more about an important accessibility requirement that's being mandated under the, the WCAG or the web content

accessibility guidelines. And this is something that I believe Rich Berube is working hand over foot on for the City Webpage, but it turns out that aside from closed captioning, which the majority of this board knows that we've been, you know, engaged in we now need to provide, audio descriptions for replayed programming, such as a person walks to the podium, or a map is shown on the screen for viewers that have vision issues, so that they can hear the action going on in the studio.

Our vendor TelView who we have their playback server with, is working on this using some AI technology, and there are some other technologies out there that look like they might come about. And since we just learned about this, we are, we are looking into it very quickly as that mandate goes into effect April 24th, for a Community of our size. Lastly, that evening... Well, second to last, that evening, we were honored to receive two second place awards and one third place award for Educational Programming in the Annual ACM Northeast Nor'Easter Awards. This region includes all of New England and New York. Congratulations to Dylan Smith, Michaela Savageau, Jojo DeFosses, and Pete Johnson for their work on the running entries. Jojo's entry was a tribute to Elm Street Middle School, High School, et cetera, and the closing of that, and she did that as a student through the high school itself.

And finally, it was announced that next year's conference will be held right here in New Hampshire and we invite members of the CTAB committee to attend and we'll share more details as they become available. Overall, the one-day format made for a long trip, but it was well worth the opportunity to connect with stations from across the region and bring back valuable insights. Thank you.

Andrew Cernota, Chairman:

All right, thank you. I do want to note for the record that Mr. Morgan has joined the meeting. Bob Bartis with Nashua Public Television.

Bob Bartis:

Thank you. Bob Bartis for BRB TV, Nashua Public Television. As you'll see in our report, we continue to provide the same content that we continually do with our hosts, as well as our show topics. We continue to run billboards promoting Nashua Public Television on WSMN, and that the shows are available on Roku and Apple TV, as well as free sign-outs for equipment are available. Our 24/7 live cams throughout the city continue to run, and those are viewable on the website as well as on WSMN. Our live events and our regular reoccurring for each quarter include having Mayor Donchess, County Treasurer Dave Fredette, AMR Director Chris Stawas, as well as Nashua Fire Rescue Chief Steve Buxton, and representatives from the Nashua Police Department. Our live events for this last quarter include the 9/11 ceremony, the Veterans Day Parade, city election coverage for the Alderman at Large Ward Alderman School Board events. We had the Meet the Candidate series that was hosted through the Chamber of Commerce that were live on WSMN and on Nashua Public Television, and we had the United Way Karaoke Show at the Performing Arts Center, and the 30th Annual Holiday Stroll and there was a celebration of life for Alderwomen Gloria Timmons, that was also broadcast. Those were the live events in the last quarter. I attended the Annual New Hampshire CCM, the Coalition for Community Media which is a statewide community TV access board with Pete Johnson and Dan Young. We did our quarterly lunch and learn. We were at the Manchester Chamber of Commerce for that event and as noted, all the shows that we record are posted on Roku and Apple, so that they can be viewed not just on Nashua Public Television, but to anyone as well on

those streaming services.

Andrew Cernota, Chairman:

Thank you. Do any members of the Committee have any questions, comments? Mr. Miseirvitch.

Nick Miseirvitch, IT CIO:

Thank you, Mr. Chair. Nick Miseirvitch. Just a couple of items, Mr. Poehnert's report. First, the Franchise Fee allotment requesting that additional 1% is in line with the subcommittee's recommendations that we put forth. So just reminding the members here and citizens as well that this is moving, well, hopefully moving forward, we got to bring it to the Administration. But like I said, that is in line. Looking at the report, Financial Report, we're about \$40,000 less than what was anticipated. That is due to people moving away from Cable TV. There's nothing we can do about that, unfortunately. However, given the opening balance and then the operating contingency item, we should still remain positive for FY26.

Andrew Cernota, Chairman:

Thank you.

Nick Miseirvitch, IT CIO:

And the other item is the Police Training Facility that construction will be completed this month, if not already.

Ernest Jette, Alderman:

Oh, all right.

Nick Miseirvitch, IT CIO:

So just letting this board know that that work is buttoning up soon.

Andrew Cernota, Chairman:

Thank you. Alderman Jette.

Ernest Jette, Alderman:

Thank you. Following up on the Franchise Fee discussion. I thought we had decided that, has that not risen to the level of the budget? I don't know. I see Director Cummings on the screen there.

Tim Cummings, Administrative Services Director:

Mr. Chairman, I'm happy to address that if you'd like.

Andrew Cernota, Chairman:

Please.

Tim Cummings, Administrative Services Director:

Thank you. So, to Alderman Jette's point, yes, it has risen to the level of the budget. Over the last couple years, we have been taking advantage or utilizing of the split differently. Last year we went from, so to be clear, when I say last year, I'm talking about FY25, we went from a two-two

split of the Franchise Fee to an FY26 a three to one split of the Franchise Fee where you know, the leaving essentially 1% being directed towards the General Fund and what is being discussed now is for FY27 taking the entirety of the Franchise Fee, that entire 4% and dedicating it to PEG. And what I would recommend is that this body, if that is what your desire is of, that you make a Motion asking that the Administration entertain the entire 4% being moved over towards the PEG budget to pay for the services that we anticipate providing in FY27. Thank you.

Andrew Cernota, Chairman:
Alderman Jette.

Ernest Jette, Alderman:

So, following up, so hearing that I don't want to take, you know, I'll leave it up to the subcommittee to make that motion if that's where you want to go, then I'll leave it... When I'm done, maybe you could make that motion or when it come, when the time is appropriate-

Andrew Cernota, Chairman:

It's actually the next agenda item, so, I think before we move on to that, are there any other questions regarding any of the reports?

Ernest Jette, Alderman:

I have more. Thank you. So, on the discussion about closed captioning, I think that it's... I'm wondering about how widely known that availability is. I think that the people who are, this is just my thoughts, this is not empirical or it's not based on any evidence, but, I think the people who are involved in this are constantly watching the PEG Channels and they see what the PEG Channels are putting out and that's..., and they may be under the impression that the whole world is, is viewing that, but the truth is, unfortunately, that very few people are actually watching. And this is not a criticism, it's just feedback I get from my constituents. Very few people are even aware that this exists. So, closed captioning issue is a small subset of that but, generally speaking when I come to these meetings and I read about all the stuff that we're putting out and that is available I think it's a shame that the public is not really taking advantage of this and I'm not a, marketing expert. We have other people on the board who are much more qualified about that, but, I think that we ought to be thinking about how, do we get the word out? And I think we have to do that not in the PEG channels. I mean, the PEG channels are reaching the people who watch the PEG channels. They're not reaching the people who aren't watching the PEG channels. So, we ought to think about how do we let the public know that this is available, especially the, I may be missing something, of course, I'm watching the meetings I'm watching the Government Channel and I do watch, the sports and that are available, that are made available through the Education Channel. But, I wasn't, I'm an example, I guess, of somebody who really wasn't that aware of the availability of the close captioning feature, and I'm wondering if especially the population out there who needs that how much we making it, are we making them aware that this is available? So, those are my comments. Thank you.

Andrew Cernota, Chairman:
Thank you. Mr. Morgan.

Cole Morgan:

Cole Morgan. This is actually something that Rony Camille, and I spoke about before he departed this committee, and some of the ideas we were tossing around, and I'm sure there's lots of ideas and lots more places, but working with other city departments like when you're registering your car, coming in to do the things that most citizens need to do every year, if there's an opportunity for literature or a QR code for them to download the apps to view, although I don't know if they're for iPhone. Right now, that might only be for Apple TV, but, or Roku, but I think there's some great ways that we could do this. I don't know if this committee can do more than recommend that or if we have, like what the method to put those in play would be, but I think there's some pretty simple things we could do.

Andrew Cernota, Chairman:

I think that would be under the advisory part of our commission. So, we could advise the city on doing that sort of stuff. So, I think any of those ideas, we can funnel them through to the Mayor's Office or through the IT Department, so that the appropriate people in the city are aware of them.

Cole Morgan:

Thank you.

Andrew Cernota, Chairman:

Any other comments, questions?

Oscar Villacis:

Sir?

Andrew Cernota, Chairman:

Yes.

Oscar Villacis:

Have we thought about providing maybe some language in Spanish or in Portuguese, maybe one day of the week to be able to attract a new demographic and be able to put information out on, like Mr. Morgan was saying, want to go register or your vehicle or any snow removal, parking in Ward 4. I think that would, I think that has been done before in radio not here, but in other metropolitan areas, that they've dedicated just maybe one day for maybe Spanish, half a day Spanish, half a day Portuguese to kind of attract that demographic. Maybe that's food for thought, so maybe we could look into that.

Andrew Cernota, Chairman:

Thank you. Any other comments?

Pete Johnson, Education Channel Access Administrator:

I would just say that as far as our closed captioning is concerned, that is a feature that is available to us now. We can do a secondary closed caption channel that is translated into one other language. We can only do Spanish or Portuguese or something for a live meeting, but it could be done for on replays-

Ernest Jette, Alderman:

Yeah

Pete Johnson, Education Channel Access Administrator:

And have a special day where the Board of Aldermen meeting had a Portuguese reading on it.

Andrew Cernota, Chairman:

Thank you. Any other? Seeing none we'll move on to old business Franchise Fees. Mr. Miseirvitch, would you like to make a motion?

Nick Miseirvitch, IT CIO:

Absolutely. Nick Miseirvitch. I move that this committee drafts a memo to the Administration with Director Cummings' guidance to request consideration of obtaining that remaining 1% of the Comcast Franchise Fee for the continued operation of this department in FY27.

Andrew Cernota, Chairman:

All right, thank you. There's a motion, discussion of the motion. No discussion of the motion at all? Then we'll move the question. All those in favor?

Participants:

Aye.

Andrew Cernota, Chairman:

All those opposed? All right, the motion passes.

Oscar Villacis:

Actually, Mr. Chairman, hold on one second.

Andrew Cernota, Chairman:

Oh, sure.

Oscar Villacis:

I believe I'm a voting member of this body as such to follow RSA 91A, you need to take it by roll call.

Andrew Cernota, Chairman:

I was under the impression that the ability to do votes by video had ceased, so I was thinking that you were here just for the discussion.

Oscar Villacis:

No, but I can participate as, I believe I'm a full voting member. I can participate in the meeting. You can't have a quorum of the body be remote.

Andrew Cernota, Chairman:

Okay.

Tim Cummings, Administrative Services Director:

And with that being noted, you should also probably note that a couple elements, we can do it at the end of the meeting to ensure that I participate following RSA 91A, there's a certain protocol that we need to follow. I can do that at the end if you'd like.

Andrew Cernota, Chairman:

That, that would be appreciated, thank you. All right then so we have to do a roll call. Now for that roll call, I have to... Even the ones that aren't, that we know are absent because of the earlier roll call, is that consistent?

Ernest Jette, Alderman:

Just the roll call...

Andrew Cernota, Chairman:

Yes.

Ernest Jette, Alderman:

... people here.

Andrew Cernota, Chairman:

Oh, just of the ones here.

Andrew Cernota, Chairman:

Okay. Andrew Cernota, yes. Tim Cummings:

Tim Cummings, Administrative Services Director:

Yes.

Andrew Cernota, Chairman:

Patrick Hannon.

Captain Patrick Hannon:

Yes.

Andrew Cernota, Chairman:

Ernest Jette.

Ernest Jette, Alderman:

Yes.

Andrew Cernota, Chairman:

Jennifer McCormick.

Jennifer McCormack, Library Director:

Yes.

Andrew Cernota, Chairman:
Nick Miseirvitch.

Nick Miseirvitch, IT CIO:
Yes.

Andrew Cernota, Chairman:
Cole Morgan.

Cole Morgan:
Yes.

Andrew Cernota, Chairman:
Emily Vassar.

Emily Vassar:
Yes.

Andrew Cernota, Chairman:
Oscar Villacis

Oscar Villacis:
Yes

Andrew Cernota, Chairman:
All right. The motion passes.
Oh. Chief Buxton.

Chief Steve Buxton:
Yes.

Andrew Cernota, Chairman:
Not only are you not on the list, you're also out of line of sight.

Chief Steve Buxton:
We'll get there.

Andrew Cernota, Chairman:
Onto new business. Officer elections. So, since this is the last meeting of 2025, our next meeting isn't going to be well into 2026. So, we'll have officer elections now. Is there anyone that's interested in running for or putting their name in for either Secretary, Vice Chairman or Chairman? Mr. Miseirvitch.

Nick Miseirvitch, IT CIO:
I'll put my name in the hat for Vice Chair.

Andrew Cernota, Chairman:

Excellent. Anyone interested in Clerk or Secretary? I think we actually, it's officially a Clerk.

Ernest Jette, Alderman:

Clerk

Andrew Cernota, Chairman:

And in case you're concerned about workload on that, since we have our minutes transcribed, the workload is pretty minimal.

Andrew Cernota, Chairman:

I mean, we have operated without one for a long time. I think the previous Library Director was The Clerk in the past.

Jennifer McCormack, Library Director:

... a long time ago. Because I'm coming up on 16 years.

Andrew Cernota, Chairman:

Yes.

Jennifer McCormack, Library Director:

So full disclosure, I was not actually aware that this committee had a Vice Chair or a Secretary.

Andrew Cernota, Chairman:

No, we do. Unfortunately, we haven't had any previous volunteers since, Alicia's left as Vice Chair.

Jennifer McCormack, Library Director:

Okay.

Chief Steve Buxton:

We did have another Vice Chair after that, Cheryl Lindner.

Andrew Cernota, Chairman:

Oh, yes. Okay.

Ernest Jette, Alderman:

Mr. Chair, could I, so are you willing to serve as Chair again?

Andrew Cernota, Chairman:

I'm willing to serve as Chair again.

Ernest Jette, Alderman:

Okay.

Andrew Cernota, Chairman:

If there are no other nominations or volunteers, maybe we'll just try to fill that Clerk seat as we go along.

Ernest Jette, Alderman:

So, could I nominate you as Chair and Mr. Miseirvitch as Vice Chair?

Andrew Cernota, Chairman:

All right, there's a nomination for Chair and Vice Chair. Is there a motion to close nominations? Chief Buxton?

Chief Steve Buxton:

[Inaudible].

Andrew Cernota, Chairman:

All those in favor, oh, since there are only nominations for one for each of the two positions there were nominations for, all those in favor of approving that slate of officers?

Ernest Jette, Alderman:

By roll call.

Andrew Cernota, Chairman:

Oh, that's right. Sorry. Andrew Cernota, yes. Tim Cummings?

Tim Cummings, Administrative Services Director:

Yes.

Andrew Cernota, Chairman:

Patrick Hannon.

Captain Patrick Hannon:

Yes.

Andrew Cernota, Chairman:

Ernest Jette.

Ernest Jette, Alderman:

Yes.

Andrew Cernota, Chairman:

Jennifer McCormack.

Jennifer McCormack, Library Director:

Yes.

Andrew Cernota, Chairman:
Nick Miseirvitch.

Nick Miseirvitch, IT CIO:
Yes.

Andrew Cernota, Chairman:
Cole Morgan.

Cole Morgan:
Yes.

Andrew Cernota, Chairman:
Emily Vassar.

Emily Vassar:
Yes.

Andrew Cernota, Chairman:
Oscar Villacis?

Oscar Villacis:
Yes.

Andrew Cernota, Chairman:
And Chief Buxton?

Chief Steve Buxton:
Yes.

Andrew Cernota, Chairman:
All right, the slate passes. So, Mr. Poehnert.

Jeff Poehnert, PEG Program Manager:
Jeff Poehnert, PEG Manager. I will continue to be the Shadow Clerk.

Andrew Cernota, Chairman:
Thank you.

Jeff Poehnert, PEG Program Manager:
Yep.

Andrew Cernota, Chairman:
Next item on the agenda, Public Comment again. No members of the public with comments.
Remarks by members. Jennifer McCormack.

Jennifer McCormack, Library Director:

Jennifer McCormack. Two things from the Library that are, might be of interest to this committee or people watching. On January 25th, Laura Knoy is coming to the Library. So, Laura Knoy, you might know was previously a radio host. She's coming to talk about a book that she's written. So, Sunday the 25th at 2:00 PM, and I've spoken to Dan and Jeff. Hopefully we'll, Nashua Community Media will record that and have that available afterwards. And also, we are running, once again, our tiny film festival this year, and submissions will be accepted sometime in February. So, if you are a filmmaker or know one, tell them to get ready. We are hosting this year a workshop with one of the High School teachers at the Library for teens to come and get a little bit of education on filming and we're hoping to get some great submissions out of it. It is a fabulous, if you aren't a filmmaker, I don't have the date for the actual festival, but it is a fabulous evening. We have concessions where you can get popcorn and candy, big screen, we give out awards. It's a ton of fun.

Andrew Cernota, Chairman:

Nice.

Jennifer McCormack, Library Director:

That's it.

Andrew Cernota, Chairman:

All right. Mr. Morgan.

Cole Morgan:

Thank you. I just wanted to make two notes here. One, just a another thank you to BRBTV for the awesome coverage of everything from the candidate series, all the things in the last quarter. Again, just really appreciate your guys' effort and dedication to quality. I know we started, I had a very different opinion, and you guys have made a lot of changes in quality and, and how you've been reporting and working. So, thank you guys. And second, just a note that Pete Johnson and I are hopefully going to speak to IT about maybe some new equipment to further enhance our ability to have connectivity throughout the city and work on some new and interesting ways to broadcast.

Andrew Cernota, Chairman:

All right, thank you. Mr. Poehnert.

Jeff Poehnert, PEG Program Manager:

Oh, just one last thing. We will be covering the inauguration at the Performing Arts Center on January 4th, 2026 at 10:00 AM. And we'll be doing that live.

Andrew Cernota, Chairman:

Excellent, thank you. Alderman Jette.

Ernest Jette, Alderman:

So, this is my last meeting because I didn't run for reelection. So, I won't be on the committee as an Alderman anymore. But I did want to... I've been on this committee for the eight years of my

service as an alderman, and I did want to say that I've enjoyed it. I've enjoyed learning about the, Cable TV Operation. I've enjoyed working with all the committee members and the staff. Mr. Poehnert and the other members of the staff have been very helpful to me and have taught me a lot about the whole operation, and I've, I've enjoyed learning that. And Mr. Johnson has, he even came to my home and helped me construe my Apple TV so that I could get the public TV channel. I appreciate that very much. And I'll continue watching, but, from afar. So, thank you very much.

Andrew Cernota, Chairman:

Well...

Ernest Jette, Alderman:

Thank you.

Andrew Cernota, Chairman:

On behalf of the board, I do want to thank you for your work with us, and it's been a pleasure having you on the board.

Ernest Jette, Alderman:

Thank you.

Andrew Cernota, Chairman:

All right. Mr. Cummings, would you like to do your script that you need to read?

Tim Cummings, Administrative Services Director:

Yes, thank you Mr. Chairman. I just want to note for the record so to ensure that we're in good standing that I'm participating remotely this morning. I'm alone, and as you can tell, I am able to participate contemporaneously both hearing and seeing the meeting. And the reason why I was here remote is I had childcare issues. Thank you.

Andrew Cernota, Chairman:

Thank you. All right. Now do we need to do a roll call vote on the adjournment vote? Apparently, we do. Okay. So, is there a motion to adjourn?

Jennifer McCormack, Library Director:

I move to adjourn.

Andrew Cernota, Chairman:

There's a motion to adjourn. Andrew Cernota votes in the affirmative. Tim Cummings?

Tim Cummings, Administrative Services Director:

Yes.

Andrew Cernota, Chairman:

Patrick Hannon?

Captain Patrick Hannon:
Yes.

Andrew Cernota, Chairman:
Ernest Jette?

Ernest Jette, Alderman:
Yes.

Andrew Cernota, Chairman:
Jennifer McCormack?

Jennifer McCormack, Library Director:
Yes.

Andrew Cernota, Chairman:
Nick Miseirvitch?

Nick Miseirvitch, IT CIO:
Yes.

Andrew Cernota, Chairman:
Cole Morgan?

Cole Morgan:
Yes.

Andrew Cernota Chairman:
Emily Vassar?

Emily Vassar:
Yes

Andrew Cernota, Chairman:
Oscar Villacis

Oscar Villacis:
Yes.

Andrew Cernota, Chairman:
Okay. And Chief Buxton?

Chief Steve Buxton:
Yes.

Andrew Cernota, Chairman:

All right. Thank you all and we will see you in, next quarter.

Ernest Jette, Alderman:

Thank you.

ADJOURNMENT:

The meeting was adjourned at approximately 9:05 am

January 28, 2026

Comcast Xfinity Privacy Policy

Effective January 1, 2025

We know you care about your privacy and the protection of your personal information^①. We also know it is our responsibility to be clear about how we protect your information. We designed this Privacy Policy to do just that. It explains the types of personal information we collect, and how we collect, use, maintain, protect, and share this information. This Privacy Policy also tells you about the rights and choices you may have when it comes to your personal information.

Some of what we say in our Privacy Policy is required by law, and may at times seem long and complicated, but we've worked hard to try to make our Privacy Policy easy to understand and provide examples where possible. The Xfinity Privacy Center (xfinity.com/privacy) includes more information about:

- How to review and manage your personal information and account activity
- How to manage your preferences, including setting your marketing and advertising preferences, and restricting certain uses and sharing
- How you can better protect yourself online

You can review this Privacy Policy and the information in the Xfinity Privacy Center anytime. If you still have questions, you can [contact us](#)^② for more information.

WHEN THE PRIVACY POLICY APPLIES

This Privacy Policy applies to the information we collect when you use or interact with the business entities, products, services, networks, and platforms^③, including our websites, mobile apps, and other services and devices where this policy is referenced. These may include Xfinity-branded services, Comcast-branded Services, Xumo-branded Services, and other products and services we deliver. This Privacy Policy also applies when you otherwise interact with us. We'll refer to all of these as our "Services" in this Privacy Policy. It also applies to the information we collect about you from third parties.

This Privacy Policy does not apply to the other products, services, websites, and applications^④ (mobile or television) that you may use or interact with through Xfinity platforms. It also does not apply where we process your personal information at the direction of business clients for whom we provide services where you have a relationship with those business clients. Instead, the privacy policies of those other parties will apply.

Learn more about when the Privacy Policy applies

Because this Privacy Policy describes the privacy practices for all of our Services, some parts may not apply to you. For example, if you do not subscribe to Xfinity Voice (home phone service) or Xfinity Mobile, we will not collect call detail information. If you do not subscribe to Xfinity Home, we will not collect home security event information.

Some Services may have additional privacy practices that may be described to you in different ways, such as in a separate contract for Comcast Business Services. To the extent there is an overlap between this Privacy Policy and a Service-specific privacy policy, the Service-specific policy or agreement will control with respect to that Service.

This Policy does not apply to the non-Xfinity products, services, websites, and applications that you may use through the Xfinity platforms, and we are not responsible for the practices of the companies providing those offerings. For example, if you subscribe to Xfinity Internet and visit a news or shopping website, the privacy policy for that website will apply. If you use one of our platforms to use another company's streaming service, the privacy policy for that streaming service will apply to information it collects about your activity within the app. Likewise, if you connect your smart thermostat to your Xfinity Home security and automation service, the privacy policy of the smart thermostat company will apply to the information it collects. For more information about how these non-Xfinity products, services, websites, and applications use your information, please review their privacy policies.

THE PERSONAL INFORMATION WE COLLECT AND HOW WE COLLECT IT

To provide you with our Services, we collect your personal information. This can include information that does not directly identify you — such as device numbers, IP addresses, and account numbers. It may also include information that does personally identify you, such as your name, address, and telephone number. We call any information that identifies you "personally identifiable information" or "PII."

If you allow others to use your Services, we will also collect personal information about those individuals. If you use our Services through someone else's account, we will collect information about you, but it may not identify who you are to us. We may also collect information about you from third parties^⑤.

We collect this information to provide our Services, communicate with you, [respond to your requests](#)^⑥, and to [tailor our Services](#)^⑦ to best meet your needs and interests.

Learn more about the information we collect and see examples

What We Collect

- **Contact Information** – Information such as your full name and telephone number that we use to stay in contact with you
- **Account Information** – Information we use to identify who you are and/or to provide or maintain your account and Services, which may include biometric information, such as audio recordings and facial scans when used as a means of identification
- **Analytics and Inferences** – Information related to your household, account, or your use of our Services and our predictions about what you might like or not like
- **Billing Information** – Information including your financial transactions that are available on your billing statements and other payment receipts
- **Demographic and Interest Information** – Information we obtain from other companies to better tailor our programming, marketing, and advertising services to you
- **Service Activity Information** – Information associated with your use of our Services

In some cases, California requires that we use different names to describe the categories of information that we collect. For more information about these categories, please see the "Additional information regarding other laws and individual rights" section of this Privacy Policy.

How We Collect Personal Information

We collect personal information about you in several ways.

1. Directly from you when you create an account, interact with our customer service, or interact with us on behalf of your business, such as:

- Contact information, which may include your name, mailing address, email address, or telephone number
- Login credentials for our Services, such as your username and password
- Information regarding your preferences for your experience on the Services such as your settings and other information you provide us to enable personalization of content
- Biometric information, such as audio recordings for voiceprints and facial scans that we create in the identity verification process
- Customer communications records, including records of calls and chats with our customer service representatives
- Information that you provide when interacting with us on our social media pages, message boards, and other forums, including your username, profile pictures, and comments, as well as information you publicly share about us
- Photographs^⑧ or images of your property
- Payment information, such as your credit/debit card or other financial account information
- Your Social Security number
- Your driver's license, state identification cards or other forms of identification
- Legal documents, such as documentation of the authority to act on behalf of another person

2. When you use or interact with our Services, such as:

- Household and device video selection and viewing activity^①
- Voice commands and audio recordings made through voice activated devices that are part of the Services, such as the Voice Remote or our app-based remote
- Geolocation information on where you are at a specific point in time based on your service address to help us authenticate you^② for certain services on our platform
- IP addresses, device identifiers, and network equipment addresses when devices connect to our Services, and other device information, including information about Devices provided by other companies from which you use our Services
- User activity information on our websites and applications using cookies and other technologies (Cookie Notice: xfinity.com/privacy/policy/cookie/notice) and information provided by other companies when you integrate their services with our Services^③
- Domain Name Server or "DNS"^④ searches and network traffic activity^⑤ when you use our Services, such as Xfinity Internet, Xfinity Mobile, or Xfinity WiFi
- Geolocation information that indicates where your device is at a specific point in time when you use Xfinity Mobile^⑥ or enable that function in our mobile apps^⑦
- General location information, such as the city or ZIP Code that correlates with the location of a WiFi service access point or with the lease of your device IP address when you use Xfinity Internet or Xfinity WiFi
- The quantity, technical configuration, type, features, call history, and amount of your use of voice services (known as Customer Proprietary Network Information or "CPNI")
- Video and audio recordings, live video and audio streams, motion activity, images, and other events that are captured or recorded when using our Services. For example, this may include capturing video, audio, or motion information (if you have turned these features on) when you use Services such as Xfinity Home security and automation

3. From third parties, such as:

- Credit reporting agencies and other entities that provide credit scoring, identity verification, fraud prevention, and similar services
- Landlords and property owners that provide contact and other information
- Government entities that offer public records
- Consumer data providers that offer demographic^⑧, interest^⑨, purchase^⑩, and other data that we use to tailor our marketing and communications to your interest
- Providers of third-party apps that you use on devices governed by this privacy policy
- Third parties that you use to sign into our Services
- Resellers or third parties that sell you a Xumo device
- Social networks and other publicly available data, like Facebook^⑪
- Online advertising companies who may share information about the marketing and advertisements you have seen or clicked on

We do not knowingly allow others to collect personally identifiable information about your online activities over time and across third-party websites when you use our online Services. For more information about cookies and other online tracking technologies, please visit our Cookie Notice (xfinity.com/privacy/policy/cookie/notice); to manage your preferences, please visit the Xfinity Privacy Preferences Center (xfinity.com/privacy/your-privacy-choices). You can also use a browser that offers you the ability to use the Global Privacy Control to communicate your privacy preferences to us when you visit our websites; please note that this will not affect how we process your information when you interact with our products and services. In some of our Services, such as Xumo TV, we may also use technologies to attempt to recognize when different devices are used by the same individual.

Because definitions and rules for a "Do Not Track" standard have not yet been established, including whether such signals must be user-enabled, Comcast does not yet respond to "Do Not Track" signals sent from browsers.

HOW AND WHEN WE USE INFORMATION, INCLUDING FOR MARKETING AND ADVERTISING

We use the information we collect to provide our Services and communicate with you. We also use it to improve our Services, develop new products and services, give recommendations, deliver personalized consumer experiences (including marketing and advertising for our own and others' products and services), investigate theft and other illegal activities, and to ensure a secure online environment.

We may combine information across our systems, platforms, and databases. This includes combining information we receive from third parties and information about your use of our Services. We may also combine information about your use of one Service with information we get from your use of another Service.

Learn more about our uses of your information and see examples

To Provide the Services

- Set up your account and account management
- Measure credit and payment risk
- Service delivery
- Bill and invoice
- Authenticate access to your account, including identity verification
- Management of the network and devices supporting our service and our systems, and other maintenance and operations
- Provide technical support
- Help with hardware and software upgrades for devices and systems

To Communicate with You

- Respond to your questions
- Personalize communications and your experience
- Send you service-related announcements and surveys

To Understand Your Use of and Make Improvements to Our Services

- Understand the use of our existing Services
- Identify and develop new products and services
- Create measurement and analytics reports for us and others^⑫

To Provide Recommendations and Deliver Relevant Advertising

- Market the Services
- Recommend movies or television shows to you
- Let you know which products and services we think may be of interest to you
- Help third-party advertisers and programmers deliver more relevant advertising on our Services and other services and platforms

To Investigate Theft or Other Illegal Activities, to Ensure a Secure Online Environment, and to Protect Health and Safety

- Detect the unauthorized use, or abuse of the Services
- Protect our customers from fraudulent, abusive, or unlawful use of the Services
- Protect our rights, our personnel, and our property
- Comply with applicable law
- To protect the health and safety of our customers, employees, contractors, or the general public

WHEN AND WITH WHOM WE SHARE INFORMATION

You are in control of your data. We do not sell, and have never sold, information that identifies who you are to anyone. This includes your Internet usage information, video usage information, or call detail information. If you participate in offers that require us to disclose your identifiable data, we will, but only at your direction and with your consent.

We share personal information with others when it's needed to provide you with our Services, including with credit reporting agencies. We also share personal information with others:

- When you direct us to do so, including to authorize other users on your account
- When required by law or to respond to legal process
- To protect our property or rights or the safety of our employees, our customers, or other individuals

If your internet service or other access is provided in whole or in part by a third party, such as a landlord or property owner, educational institution, local government, or nonprofit entity, we may share with them information collected during your registration, as well as service tier, activation, and/or aggregated usage information.

If we share your personal information with other companies for their own marketing and advertising activities, we will first get your consent. This may be through opt-in or opt out settings®, depending on the type of personal information shared.

We may also share personal information that does not identify you with third parties for their own marketing and advertising purposes, which you can opt out of. This mainly occurs when you interact with our websites and mobile applications that contain third-party cookies or other advertising trackers. To learn more about this, please read our Cookie Notice (xfinity.com/privacy/policy/cookie/notice).

Learn more about when and with whom we share information

The Comcast Family of Businesses

If Comcast shares the personal information it collects about you with separate Comcast companies, including our parent company Comcast Corporation and its subsidiaries, such as NBCUniversal and Sky, to use for their own purposes, we will first give you the choice to opt out of or opt in, as appropriate, in the Xfinity Privacy Preferences Center (xfinity.com/privacy/your-privacy-choices).

Account Owners and Other Authorized Users

We may share information about a customer's account and use of a Service to the primary account owner following appropriate authentication. The primary account owner may also allow others to see information on the account.

Service Providers

To provide and support the Services, sometimes we use other companies as service providers to transmit, collect, process, or store information for us. We require these service providers to treat the information we share with them as confidential and to use it only for providing their services to us. These include:

- **Billing and collection providers**, such as payment processors and organizations that assist us in assessing your credit and payment status
- **Accounting, auditing, and tax providers**
- **Insurance providers**
- **Professional services providers**, such as firms that provide consultative services, assist with improving our programming, provide legal services, or supply project-based resources and assistance
- **Analytics services**, including entities that analyze traffic to and on our websites, analyze how our Services are used, and assist with identifying and communicating with potential customers
- **Marketing, advertising, and sales entities** that assist us in creating and executing marketing, advertising, and sales programs, including order application processing, and printing, mailing, and electronic communications services
- **Security providers**, such as entities that assist with security incident verification and response, service notifications, fraud prevention, identity verification and management, and authentication
- **Information technology providers**, such as entities that assist with website design, hosting, and maintenance, data and software storage, and network operations
- **Customer service support**, including services related to our call centers, installation, maintenance, and repair services

Third Parties

We do not sell, and have never sold, information that personally identifies who you are to anyone. Although permitted by federal law, we do not disclose your name and address to non-governmental entities, such as charities or businesses, for their own marketing purposes.

Sometimes, you may ask us to share information that personally identifies you with another company®. In that instance, we will make sure you give us clear direction about what you want us to share and with whom, before we share that information.

Other sharing with third parties can include:

Social Media Companies

You may interact with parts of our Services that cause information to be published to your social networks. For example, you may click on a Facebook "like" button which publishes to your Facebook account that you "like" one of our Services. On those parts of our websites with social network functionality, a social network may be able to collect information about you. For example, if a page contains a Facebook "like" button, Facebook may be able to collect data about your visit to that page even if you don't click on the "like" button. To control this sharing of information, please review the privacy policy of the relevant social network and/or sign out of it before you use our Services.

Online Advertising Partners

We may use cookies or other technology to deliver personalized advertising® to you when you visit other websites, including advertising based on the products and services you viewed on our Services. We also allow our partners, including advertisers and service providers, to use cookies and similar tracking technologies when you use our Services. For more information about the use of cookies and other technologies on our online Services, please see the Cookie Notice (xfinity.com/privacy/policy/cookie/notice).

Audience Measurement and Analytics Companies

We work with business partners to help us measure and analyze how our customers are using our Services. For video, this includes assessing which programs are most popular, how many people watch a program to its conclusion, whether people are watching advertisements, and what programming and video content we will carry on the Services. It also includes determining how our customers prefer to view certain kinds of programming when they use our Services, such as whether they like to watch certain programs live, or if they prefer to view them on demand, on mobile devices, or online. Our business partners may compile this information into reports with aggregated and anonymous statistics that are then made commercially available (for example, a ratings report that indicates what percentage of viewers watched a particular program live vs. on-demand). Xfinity Stream includes Nielsen's proprietary measurement software, which will allow users to contribute to market research, like Nielsen's television ratings. By visiting nielsen.com/digitalprivacy, users can access more information about the measurement software and learn about their choices with regard to Nielsen's measurement.

Non-Xfinity Apps and Partners

Certain Services enable you to interact directly with technology provided by other companies, such as using a non-Xfinity video app® available through our Services, or accessing our Services through another company's platform or device®. When you use our Services in connection with any technology provided by another company, you are directing us to

interact with that company and that company may collect information from you and our Services. This Privacy Policy does not cover the privacy practices of other companies. For more information about how those companies use your information, please review their privacy policies. For more information about non-Xfinity apps supported on our video Services, please visit my.xfinity.com/privacy/providers. Certain apps may also run using technology provided by Metrological, a separate Comcast company not subject to this Privacy Policy, whose privacy practices are described at metrological.com/privacypolicy.

Consumer Reporting Agencies

We disclose information that personally identifies you to consumer reporting agencies that may be subject to other laws, including the Fair Credit Reporting Act. These disclosures may include information that helps validate your identity, such as your name, current and former addresses, contact information, Social Security number, government-issued identifiers, your payment history and account status, and other identifying information.

Public Safety Authorities

If you have our Xfinity Voice service, Comcast will disclose your name and contact information to public safety authorities such as 911/E911 and related emergency services.

Directory Services, Assistance, and Caller ID

Your name, address, and telephone number may be sent to publishers to be printed in directories and posted in online directories. Once that information is printed or posted online, it is outside of our control and may be sorted or repackaged and made available again in different formats by anyone, including data aggregators, for a variety of purposes, including marketing. For a fee, you can choose to have a nonpublished number, which means that Comcast will not provide your name, address, and telephone number for publishing in the phone book and online directories. You can also choose to have a published number, but choose the "omit address feature," which means we will not provide your street address for publishing in the phone book and online directories. If initiating service online, select "non-published" option, otherwise call 1-800-XFINITY to sign up.

We may also make your number, name, and address available to directory assistance (411) providers. If you have a nonpublished number, Comcast will not make your number available through directory assistance. Comcast may still share your name and address with the 411 provider when specified by law (but the provider is not authorized to share your non-published number).

Please note: While the non-published feature will keep your name, address, and telephone number out of printed and online directories over which Comcast exercises control, even a non-published phone number may exist in databases not controlled by Comcast – if, for example, your present telephone number or address was previously published under your name, or if you provided this information to businesses or government agencies. One way to help protect your privacy may be to request assignment of a new telephone number (with which your name has not previously been associated). You may also want to activate Caller ID Blocking or select the do-not-call option.

Caller ID provides your name and telephone number to the person you are calling – even if you have a nonpublished number. Per Line Caller ID Blocking will automatically block Caller ID for all calls you make from your registered telephone number and can be activated by calling 1-800-XFINITY. Per Call Caller ID Blocking will block name and number on a per-call basis and can be activated by dialing *86 before each call you want to block.

Potential Purchasers of our Business

If we enter into a potential or actual merger, acquisition, or sale of all or a portion of our assets, then information about you and your subscription will, in most cases, be shared or transferred as part of the transaction. This includes information that personally identifies you. If this Policy will be changed as a result of such a transaction, you should refer below under "Changes to this Privacy Policy."

Government and Other Entities When Required by Law or To Protect Comcast and Others

There are times when we may be required by law to disclose information about you to third parties. This may happen with or without your consent, and with or without notice, in compliance with the terms of valid legal process such as a subpoena, court order, or search warrant.

If you subscribe to our Xfinity Video service, Comcast may be required to disclose information that personally identifies you to a governmental entity in response to a court order. In this case, the Cable Act requires that you be given the opportunity to appear in a court proceeding to contest any claims made in support of the court order, and the governmental entity must offer clear and convincing evidence that you are reasonably suspected of engaging in criminal activity and that the information sought would be material evidence in the case. For more information, see "Your Rights and Our Limitations Under Federal Laws."

If you subscribe to the Xfinity Internet, Voice, Mobile, or Home security and automation Services, Comcast may be required to disclose information that personally identifies you to a governmental entity in response to a subpoena, court order, or search warrant, depending on the type of information sought. We may be prohibited from notifying you of any such disclosures by the terms of the legal process.

A non-governmental entity, such as a civil litigant, can seek information that personally identifies you or your use of the Xfinity Video, Internet, or Voice Services only pursuant to a court order, and we are required by the Cable Act to notify you of such court order. If Comcast is required to give information that personally identifies you to a private third party in response to a civil court order for these or other Services, we will notify you prior to making such disclosure unless legally prohibited from doing so.

We may also disclose information that personally identifies you as permitted by law and without your consent when it is necessary to protect our customers, employees, or property; in emergency situations; or to enforce our rights under our terms of service and policies.

HOW WE PROTECT YOUR INFORMATION

We follow industry-standard practices to secure the information we collect to prevent the unauthorized access, use, or disclosure of any personal information we collect and maintain. These security practices include technical, administrative, and physical safeguards, which may vary depending on the type and sensitivity of the information. Although we take the responsibility of safeguarding your personal information seriously, no security measures are 100% effective and we cannot guarantee that these practices will prevent every unauthorized attempt to access, use, or disclose your information. Comcast also takes additional steps to increase the security and reliability of customer communications. We do not read your outgoing or incoming email, file attachments, video mail, private chat, or instant messages. However, we (along with our service providers) use software and hardware tools to help prevent and block "spam" emails, viruses, spyware, and other harmful or unwanted communications and programs from being sent and received over Comcast.net email and the Comcast Services. To help protect you and the Services against these harmful or unwanted communications and programs, these tools may automatically scan your emails, video mails, instant messages, file attachments, and other files and communications. We do not use these tools for marketing or advertising.

HOW LONG WE KEEP YOUR INFORMATION

We keep your personal information for different lengths of time depending on the type of information and the business and legal requirements. For example, if you are a customer, we keep information that personally identifies you as long as you subscribe to one or more of our Services. If you no longer subscribe to a Service, we still may need that information for business and legal requirements, such as to protect against fraud, calculate taxes, or respond to legal requests. Other information is deleted automatically after a set period of time, often set by law, unless we are legally required to hold it longer, such as for pending litigation. We destroy, de-identify, or anonymize the information when it is no longer needed in identifiable form.

THE CHOICES YOU HAVE TO CONTROL OUR USE OF PERSONAL INFORMATION

You have many choices about how we communicate with you and how we use or share your information. You can manage these settings in the Xfinity Privacy Preferences Center (xfinity.com/privacy/your-privacy-choices). If you change your mind, you can update your preferences any time.

ADDITIONAL INFORMATION REGARDING OTHER LAWS AND INDIVIDUAL RIGHTS

If you're a resident of one of the following places, go to xfinity.com/privacy/policy to review the additional privacy notice and information that applies to you.

California
Colorado
Connecticut
Delaware
Iowa
Maine
Montana
Nebraska
New Hampshire
New Jersey
Oregon

Virginia
Washington/Nevada
EEA, Switzerland, and United Kingdom

CHANGES TO THIS PRIVACY POLICY

We may change this Privacy Policy over time as our business needs and those of our customers change. If we make material changes to this Privacy Policy that increase our rights to use personal information that we have previously collected about you, we will notify you through written, electronic, or other means so that you can make any necessary decisions about your ongoing use of our Services.

HOW TO CONTACT US WITH QUESTIONS ABOUT THIS PRIVACY POLICY

- **Send Us a Message:** Comcast_Privacy@comcast.com

Be sure to include your name and address, your Comcast account number (if applicable), and a daytime telephone number where we can reach you.

MORE INFORMATION ABOUT SOME OF THE TERMS AND PHRASES USED IN THE POLICY

Below you can find illustrative examples and more information about the terms used in the policy that have ① next to them.

Personal information: Includes any information that is linked or reasonably linkable to you.

Products, services, networks, and platforms: Examples of when this policy applies include Xfinity® TV and Streaming, Xfinity Internet, xFi and Xfinity Advanced Security, Xfinity Voice, Xfinity Stream app, Xfinity WiFi service, Xfinity Home, Xfinity Mobile, Xfinity Flex, Comcast Business Services, Effectv, Xumo, Xumo TV, Xumo Play.

Other products, services, websites, and applications: For example, if you use the Peacock app on your X1 or Xfinity Mobile phone, NBCUniversal's privacy policy will apply to the information collected through that app.

Third parties: Third parties are other companies that collect or maintain information about you and share it with us, such as credit bureaus who share information with us when you sign up for service and consent to a credit check.

Respond to your requests: In order to provide better customer service, we keep track of when you contacted us, what the issue was and what is the best way to get in contact with you.

Tailor our services: We collect data from third parties to better understand your interests and provide personalized offers.

Photographs: For example, we may take a picture of your porch or doorstep with the equipment we deliver to you or aerial photographs of our network to assess network safety and compliance.

Video selection and viewing activity: When you use the video services we directly provide, such as Xfinity TV and the Xfinity Stream app, we know what video selection you made in order to deliver it to you. When you access content from third-party applications on the X1, Flex, or Xumo TV platform, we will only know that you accessed that application, not what you do within those video selections unless you have allowed the sharing of this information.

To help us authenticate you: Some of our services can only be provided in certain geographic areas and require us to know that you are physically located at your service address in order to use them or access information.

Information provided when you integrate other services with our Services: For example, if you download or use another company's tools or features that are compatible with our Services, that other company will collect information about your use of those tools and features and may share additional information with us.

DNS: The address book of the Internet is known as DNS, or Domain Name System. It's how people navigate the Internet. Millions of Comcast customers look up billions of addresses online every day. We delete the DNS queries generated by our Internet customers every 24 hours except in very specific cases where we need to research a security or network performance issue, protect against security threats, or comply with a valid legal request. You may decide to keep that information in your account longer when you enable certain features, such as our advanced security services that allow you to see the websites that are blocked for up to 30 days. But we've never used that data for any sort of marketing or advertising – and we have never sold it to anyone.

Network traffic activity: Where you go on the Internet is your business, not ours. We limit our use of customer network traffic activity to assess how the network is performing; understand trends; stay ahead of capacity demands; build, test, and improve our products and services; and for fraud and security purposes. We do that with a sample of network data and we only connect our customer's network activity to particular individuals when necessary for security or fraud purposes, or required by law.

Xfinity Mobile: We don't sell, and have never sold, your location data when you use our Xfinity Mobile service.

Mobile apps: If you are using a mobile device to access our Services, we may need to know the location of your mobile device or other device in which you have installed one of our applications for certain functionality, such as connecting you to a nearby Xfinity WiFi Hotspot. We will request your consent to collect and use precise geolocation information before we do so. You can prohibit the collection of this information through your device's settings (see "Your Choices") but doing so may limit certain functions and features of our Services.

Demographic: Information like gender, age, and census records.

Interest: Information that indicates your interest in things like sports, travel, or cooking.

Purchase: Information from loyalty program or public records.

Learn more about your privacy choices

For your convenience, we have created the Xfinity Privacy Preferences Center (xfinity.com/privacy/your-privacy-choices), where you can manage:

- how we process personal information linked to your account for certain uses associated with audience measurement, analytics, and personalized advertising for third-party products and services based on your interests
- whether we use your sensitive personal information for personalized recommendations, advertising, and marketing
- your preferences regarding which cookies are stored by our website in your browser when you visit
- your preferences regarding communications, offers, and notifications from us

You can find out more about the choices you have and set your preferences. If you change your mind, you can return any time to update it. Some of the choices are limited to our use of certain customer information and may require you to sign into your account.

We understand that sometimes you may want to speak to a Comcast representative who can assist you with your choices. You can contact Comcast at 1-800-XFINITY and ask us to put your name on our internal company "do not call," "do not mail," or "do not knock" list.

If you subscribe to Xfinity voice service, when you are interacting with one of our customer service representatives, such as on a call, in our offices, or during an online chat session, we may ask you for your oral consent to the use of your customer proprietary network information or "CPNI" for the purpose of reviewing your account and providing you with an offer for other products and services. If you provide consent, Comcast may use your CPNI only for the duration of that telephone call or discussion in order to offer you additional services. If you deny or restrict your approval for us to use your CPNI, you will suffer no effect, now or in the future, on how we provide any services to which you subscribe.

Additional privacy preferences may be available to you on the devices you use to access the Services.

HOW TO ACCESS AND CORRECT THE INFORMATION IN OUR RECORDS

Part of our commitment to transparency includes giving our customers access to the personal information we have about them. If you subscribe to our Services, you have the ability to see and correct your personally identifiable information through your online account services.

Certain states may give you additional rights, as described in the "Additional information regarding other laws and individual rights" section of this Privacy Policy.

All individuals may also make requests to access and correct certain personal information, and to have us delete certain personal information through our Privacy Center by visiting xfinity.com/privacy/requests.

Learn more about how to access personally identifiable customer information

If you subscribe to an Xfinity Service, you may correct or update information in your account by visiting xfinity.com or by contacting us as described below. If you are an Xfinity Home customer, you can also correct or update your contact and emergency information in the Xfinity Home app. We will correct our records once we have verified that the changes you request are proper.

If you subscribe to Xfinity TV, Internet, or Voice services and would like to see your own personally identifiable information, other than your customer proprietary network information ("CPNI"), you may do so at your local Comcast office. To do so, please contact us by email at Comcast_Privacy@comcast.com or by phone at 1-800-XFINITY, giving us a reasonable period of time to locate and, if necessary, prepare the information for review, and to arrange an appointment during regular business hours. You will need to have proper identification and will only be able to see the personally identifiable information in your account and no other account.

If you make a written request for a copy of your Xfinity Voice or Mobile CPNI, we will provide you with the relevant information we have by mailing it to your account address, or to any person authorized by you, if we reasonably believe the request is valid. However, subscribers to our Xfinity Voice and Mobile Services should be aware that we generally do not provide them with records of any inbound or outbound calls or other records that we do not furnish in the ordinary course of business (for example, as part of a bill) or which are available only from our archives, without valid legal process such as a court order. In addition, we cannot correct any errors in customer names, addresses, or telephone numbers appearing in, or omitted from, our or our vendors' directory lists until the next available publication of those directory lists. Further, we may have no control over information appearing in the directory lists or directory assistance services of directory publishers or directory assistance providers that are not owned by us.

Comcast reserves the right to charge you for the reasonable cost of retrieving and photocopying any information or documents that you request, where permitted by law.

YOUR RIGHTS AND OUR LIMITATIONS UNDER FEDERAL LAWS

The federal Cable Act imposes limitations on our collection and sharing of information that personally identifies you when you subscribe to Services that use the facilities of the Comcast cable system. The Communications Act imposes restrictions on our use and sharing of CPNI when you use Services that are deemed telecommunications services.

Learn more about your rights and our limitations under federal laws

The Cable Act and Personally Identifiable Information

This Privacy Policy is designed to comply with Section 631 of the Cable Communications Policy Act of 1984, as amended, (the "Cable Act"). The Cable Act permits Comcast to use the cable system to collect personally identifiable information about you. Personally identifiable information is information that identifies you specifically; it does not include de-identified, anonymous, aggregate, or other data that does not identify you. We may collect personally identifiable information when it is necessary to render cable services or other services to you and to detect unauthorized reception or use of the services. We may use the cable system to collect personally identifiable information about you for additional purposes with your prior written or electronic consent. The Cable Act also permits Comcast to disclose personally identifiable information if the disclosure is necessary to render, or conduct a legitimate business activity related to, the cable service or other services provided to you; required by law or legal process; or limited to your name and address, subject to your opt-out consent. The frequency of any disclosure of personally identifiable information varies in accordance with our business needs and activities as described in this Policy.

If you believe that you have been aggrieved by any act of ours in violation of the Cable Act or other applicable laws, we encourage you to contact us directly at Comcast_Privacy@comcast.com in order to resolve your question or concern. You may also enforce the limitations imposed on us by the Cable Act as applicable with respect to your personally identifiable information through a civil lawsuit seeking damages, attorneys' fees, and litigation costs. Other rights and remedies may be available to you under federal or other applicable laws as well.

This Privacy Policy neither supersedes, enhances, nor modifies any arbitration agreement to which you may be bound as a subscriber to one or more of the Services.

The Communications Act and CPNI

Section 222 of the Communications Act of 1934, as amended (the "Communications Act"), provides additional privacy protections for information about the quantity, technical configuration, type, destination, location and amount of your use of telecommunications services, including Xfinity Voice and Mobile Services, and the information about those services contained on your bills for those Services. This information is known as customer proprietary network information or "CPNI." CPNI does not include your name, address, or telephone number, which is defined by the Communications Act as "subscriber list information." However, that information is otherwise considered personally identifiable information.

If you are a customer of Xfinity Voice or Mobile Service, or another Service that is subject to these requirements, you have the right, and Comcast has a duty, under the Communications Act and other applicable laws, to protect the confidentiality of your CPNI. In addition, the FCC's rules provide additional privacy protections and choices regarding use and sharing that are specific to our Voice and Mobile service that we describe in this Policy.

Facebook: If you interact with our Services on a device through which you also interact with social networks or if you interact with us through a social media function such as a plug in (for example, a Facebook "like" button) then you may be permitting us to have on-going access to some information from your social network profile (such as your name, email address, your friend list, photo, age, gender, location, birthday, social networking ID, current city, the people/sites you follow, and so forth). If you don't want a social network to collect the information about you as described above, or you don't want a social network to share it with us and other third parties, please review the privacy settings and instructions of the applicable social network before you interact with our Services.

Measurement and analytics reports for us and others: We and service providers who work on our behalf may combine and use data from our business records – including account information, video activity data, and other usage data – with data from third parties to create measurement and analytics reports. These reports are de-identified or aggregated and do not contain any information that personally identifies you.

We use these reports for many of the purposes described in the Privacy Policy, such as for improving the Services, creating and delivering more personalized advertising on behalf of Comcast and other third parties, determining whether and how an advertiser's messages are viewed, and analyzing the effectiveness of certain advertisements on the Comcast Services and other platforms and services. We also use these reports to work with academic or research groups, and for other uses that help us develop and fund improvements in services and infrastructure. We may share these reports with programmers, advertisers, or others. To learn about the choices you have with respect to our use of your information for these purposes, visit the Xfinity Privacy Preferences Center (xfinity.com/privacy/your-privacy-choices).

Opt-in or opt-out settings: For example, if we share personal information that does not personally identify you with others for their own use, we will first give you the choice to opt out of such sharing. In other instances, you may want us to share your name, physical address, or email address with another company, such as when you are signing up for a third party service through one of our platforms, such as the X1, Flex, or Xumo TV platform. In that instance, we will make sure you give us clear direction to do so, before we pass that information on.

Another company: For example, when you are signing up for a third-party service through our X1 or Flex, you may ask us to share contact information to help you register or log on. Or if you were interested in a product you saw advertised on television and wanted to share your contact information so that the product provider could send you more information, we might present that option to you.

Personalized advertising: The display of ads to you where the advertisement is selected based on personal information obtained from your activities over time and across nonaffiliated websites or online applications.

Non-Xfinity video app: For example, when you use Peacock on the X1, Flex, or Xumo TV platform.

Another company's platform or device: For example, when you use the Xfinity Stream app from devices operated by other companies, such as an Apple or Android device.

Important Information for Xfinity TV Customers

SERVICE PROBLEMS

You will find helpful information for troubleshooting TV picture or signal quality issues at xfinity.com/support. If the problem does not clear up, please feel free to chat with us at xfinity.com/support/contact-us or call us at 1-800-XFINITY, and a customer service representative will attempt to address that issue. We will try to resolve any complaints you have concerning the quality of our signals promptly and efficiently. We will respond to your report of a service interruption no later than 24 hours after you notify us, except in extraordinary circumstances or where conditions are beyond our control. We will respond to your report of other service problems no later than the next business day after you notify us. We may need access to your home in order to correct a service related issue. If a service call is required it will be scheduled at a time convenient to you. If you are dissatisfied with our resolution of your service problem, you may contact your local franchising authority to discuss the problem with your service. If your local franchise authority information is not listed on your bill, please call us at 1-800-XFINITY for the name and address of your local franchising authority.

SERVICE OR BILLING COMPLAINTS

Information regarding your Xfinity services and billing is available at xfinity.com. You also may download the Xfinity app to your smartphone or other device for quick access to up to date information on your account. If you have a complaint regarding your Xfinity TV service or your bill, you will find information on contacting us through chat or by phone at xfinity.com/support/contact-us. Also, you can visit us at one of our Xfinity store locations. Visit xfinity.com/support/service-center-locations to find the Xfinity store closest to you. If you wish to put your comments in writing, your letter should be addressed to us at the local address listed on the How To Reach Us insert.

We will try to resolve your complaint promptly. If you are dissatisfied with our resolution of your complaint, or we are unable to resolve your complaint, you may contact your local franchising authority to discuss your complaint. If your local franchise authority information is not listed on your bill, please call us at 1-800-XFINITY for the name and address of your local franchising authority.

If you have a complaint regarding closed captioning please email us at accessibility@comcast.com or call us at 1-855-270-0379.

MOVING

Please visit xfinity.com/moving before you move. This is the best way for us to arrange for your service to be disconnected and to schedule an installation at your new home, if your new home is in our service area.

EQUIPMENT COMPATIBILITY

Xfinity TV service is encrypted and requires a TV Box or other navigation device that is compatible with our system for each television you wish to use with our service. You may not be able to use special features or functions of your television, VCR or DVD player/recorder with Xfinity TV service. Some of these problems may be resolved by the use of signal splitters, and/or other supplemental equipment that can be purchased from us or at electronic stores. Please call us if you would like to discuss the type of special equipment needed to resolve individual compatibility problems or if you have any questions regarding other equipment compatibility issues.

If you have a TiVo digital cable-ready DVR, you can access switched digital video services by obtaining a "tuning adapter" device. If you have a TiVo DVR or other digital cable-ready devices, you will need a TV Box from us to access switched digital video and other two-way cable services. Upon your request, we will provide you with the technical parameters necessary for a navigation device rented or acquired from retail outlets to operate with our system. Because of the need to protect our Xfinity TV service, we will not authorize the use of a navigation device that does not conform to all required signal security specifications. For information regarding other navigation devices, please go to xfinity.com/support.

REMOTE CONTROL UNITS

If you rent a TV Box from us we will provide a compatible remote control. Also, you may purchase a compatible remote at local electronic stores or other retail outlets. We suggest that you review the remote manufacturer's website prior to purchasing the device to confirm compatibility with Xfinity equipment and your TV set.

SERVICE CHANGES AND INSTALLATION

Standard installations are generally completed within 7 business days. If you change the services you receive, you may be subject to an installation or change of service charge. You may obtain additional information about our current services, fees and prices online at xfinity.com or by calling us at 1-800-XFINITY.

RECENT AND UPCOMING PROGRAMMING CHANGES

Information on recent and upcoming programming changes can be found at xfinity.com/programmingchanges or by calling 866-216-8634.

OTHER INFORMATION

For those of our customers receiving service through commercial accounts, bulk rate arrangements or similar arrangements, some of the policies, procedures and services herein may not apply. Please call us at 1-800-XFINITY to talk to one of our customer service representatives for further information.

THE CITY OF NASHUA

"The Gate City"

To: Andrew Cernota, Chair, Cable Television Advisory Board (CTAB)

CC: Mayor Jim Donchess

Members of Cable Television Advisory Board

From: Jeff Poehnert, PEG Manager

Pete Johnson, Education Channel Access Administrator

Date: March 13, 2026

Re: City of Nashua PEG Program Report

The IT Division hereby submits the following status report of PEG Program activities from December 2025 to March 2026.

FINANCIAL:

Budget - CTAB Financial Report for the month of February 2026 has been submitted.

Current balance of Operating account (2505) is **\$195,377.69**

Expenses for February 2026, including salaries and facility operations totaled **\$30,646.00**

OPERATIONS:

Channel GOV Channel 16, NPTV Channel 6, EDU Channel 22 and NCM-HD Channel 1073 Broadcasts

- 5944 cablecasts total December 2025 to February 2026:

- 142 live events (PUB 6 = 25, EDU 22 = 41, GOV 16 = 44, NCM-HD = 32)
- 5744 Playbacks (PUB 6 = 2906, EDU 22 = 900, GOV 16 = 859, NCM-HD = 777)
- 5042 Hours (PUB 6 = 2011, EDU 22 = 866, GOV 16 = 949, NCM-HD = 856)

Franchise Fee Allotment

We have submitted our FY2027 Budget proposal, and this includes our Franchise Fee allotment to now reflect a 4% Franchise fee collection.

CTAB Meeting in our Studio

We would like to host our June CTAB meeting in our Studio at Riverside.

BRBTV and Nashua Community Media Finance Committee Appearance

We will need to schedule our annual appearance in front of the Finance Committee earlier this year to issue the Purchase Order for the BRBTV Contract. Last year we didn't appear until mid-July, requiring our Public TV people to front the money for insurance and software licensing that were due July 1st from personal accounts.

Meeting Cancellation/Compensation Policy

Up until now we have no written policy as to our Videographers being compensated for cancelled meetings. It has been our practice through the years to compensate our Videographers for 4 hours if a meeting is cancelled on the day of that meeting. The fact that we have no written policy concerning this has come to light as I decided to compensate our Videographers for the cancellations due to the February 23rd snow storm, even though they had been postponed prior to that day. We would like to put in writing that it is our policy to compensate for cancelled meetings only if they are postponed on the actual day of the meeting.

ETV PROGRAMMING ACCOMPLISHMENTS for DECEMBER 2025

12/5/25 recorded annual holiday tree decorating at City Hall

2/20/26 recorded Public Health Matters in Studio

BRBTV Update Report

From: BRB TV, LLC -George Russell and Bob Bartis

Date: Submitted for March 13th 2026 Meeting

Re: Progress Overview December 1st 2025 to February 28, 2026

From December 1st, 2025 to February 28, 2026, Channel 6 ran 3050 shows/programs (approx. 2251 hour) of which 472 programs (approx. 328 hours) were 'first run' or shows that aired for the first time during that time frame on the channel along with multiple Live events/shows.

Progress Overview December 1st 2025 to February 28, 2026

Shows/Hosts:

We continued to work with existing hosts and produce shows including but not limited to: United Way, VFW, Changing the Stigma (veteran's affairs), The Ring-Pro Wrestling, Public Health shows in English, French, Spanish, Portuguese and Swahili, Gate City Chronicles, Perspectives, Speaking with the Senator, Frankly Speaking, Empower Hour (Greater Nashua Mental Health), Nashua Strong, Just Jocelyn Wellness From Within, Poetry Palace, and All Things Real Estate.

- ✓ Content/Topics include public access shows on: Politics-local, State and National, Literacy, Education, Reading, Dyslexia, Health and Diet, Cooking, Exercise, Yoga, Pilates, Dance, Music/choral/concerts, Jazz, Polka, Swing, Professional Wrestling, High School sports, auto-racing, painting, artist interviews, nature hikes, nature-environment and environmental issues, animals, space/planets/eclipse, morning Zen, meditation, Special Olympics, religion, faith based shows, wealth, legacy planning, addiction, small businesses, password games and real estate improvement shows.

Written Complaints from the Public: None received during the reporting period.

Training and Tasks Undertaken and Continuing:

- ✓ NPTV continues to run slide/billboards on BRBTV and WSMN.live promoting FREE TV Time and Free Equipment Sign Outs and the ability to watch shows on Roku;
- ✓ Roku Channel and Apple TV are updated weekly with the new shows taped each week;
- ✓ Continuing to operate and monitor our Live Nashua River and Nashua Arts Center cams, Nashua Senior Center cam; Chamber of Commerce Camera and Mine Falls Park camera, West Hollis Street camera-viewable on the website;
- ✓ Live events regular and re-occurring this quarter include Mayor Jim Donchess weekly on air, County Treasurer David Fredette, AMR Director Chris Stawasz, Live monthly reports from Nashua Fire Chief Steve Buxton, and from representatives of Nashua Police Dept;
- ✓ Live and Special broadcasting events this quarter included coverage of: Breakfast with Santa at Nashua Senior Center, Nashua Choral Society,
- ✓ Bob Bartis and Art Colvin attended the quarterly and annual NH CCM meetings (NH Coalition for Community Media, State-wide community access tv board) with Pete Johnson, and Dan Young for a 'lunch and learn' program at Merrimack Public Television.

Respectfully Submitted,

/s/

Bob Bartis and George Russell
